Dear American Conversation Experience Hiring Manager:

With an Associate of Science in Computer Science and Information Systems, and a current Senior at Weber State University, I am interested in seeking the **ACE EPIC BLM UT: IOS Developer Internship**.

Although software development is my primary pursuit and passion; I enjoy the outdoors, historical landmarks and the stories they tell. The mission on the Bureau of Land management corresponds with my own personal beliefs in preservation and stewardship. I am versed in several programming languages with an emphasis on web apps and front end development. With that in mind, my own versatility is my strong suite and a point of pride in software development.

During my time Salt Lake Community College I earned a 3.66 GPA and related certificates. I am a current employee at the United States Postal Service giving me experience in Government service as far a that may correspond.

Thank you for your time and consideration. I hope to have the opportunity to discuss the opening with you in person.

Sincerely,

Michael Gray
